

RC1 Marine Lubricating Spray

DESCRIPTION

Pioneer RC1 Marine Lubricating Spray is a multipurpose unique spray formula that can be used on any moving parts to provide better, longer lasting lubrication and protection from rust and corrosion.

USES

Pioneer RC1 Marine Lubricating Spray is generally used for home, automotive and industrial applications.

Some specific uses of **Pioneer RC1 Marine Lubricating Spray** are the following:

- Guards against rust, loosens rusted parts on frozen bolts, zippers, valves, locks, hinges, wheels, bicycle chains and gears
- Protects against salt water corrosion
- Frees sticky mechanism
- Drives out moisture from distributors, spark plugs, relays, wiring cables and wet engines
- Cleans electrical contacts and stop squeaks on hinges, sliding doors, wheels, bicycles, machinery, equipment, cars, and all moving parts

APPLICATION

Shake can well before use. Spray affected area with RC1 and allow several minutes for product to penetrate. For best rust protection, do not wipe off.

PRECAUTIONS

Extremely flammable, do not spray near sparks, heat or open flame.

Dispose off can carefully, may explode if punctured or heated. Do not pierce near a heat source for elongated periods.

Use in well ventilated areas, avoid breathing vapors.

TYPICAL PROPERTIES:

Color : Clear, slightly yellowish

Solubility in water: insoluble

Specific gravity: 0.816 at 70°F

pH: 6.0+/-0.5

Inside pressure of the can: (25°C) : 0.5MPA

Emission rate: ≥ 98%

Packaging: 400ml can
